

EX-SLT-900 Automatic Thermal Paper Slitting Rewinding Machine

EX-SLT-900 automatic thermal paper slitting rewinding machine is able to make cash register paper roll, ATM roll, adding machine roll, POS roll, and so on.

It with Siemens PLC and HMI for intelligent control and 7 x 24 hours online service and fluent English communication ability.

Machine Feature:

Components

Unwinding section	<ul style="list-style-type: none">-Chain link automatic lift-up loading system-3”(76mm) air expanding shaft-Floating roller constant tension- Two set Sensor-Self expandable chuck-Guide & Slide AMT from Taiwan
Slitting Section	<ul style="list-style-type: none">-Choices of Razor cutter or Disc cutter-Disc Cutter Assembly adopt the cam self-locking-Cutter with adjustable and moveable blade base.-Meter counter
Rewinding Section	<ul style="list-style-type: none">-0.5”,1”,1.5” or as your request-Center Rewinding technology

	<ul style="list-style-type: none">-Pressure roller-Electromagnetic Clutch from Taiwan
Controlling Section	<ul style="list-style-type: none">--Siemens PLC & HMI from Germany-All the parameters are displayed on the monitor
	<ul style="list-style-type: none">-Low voltage electrical appliances all from Schneider
Trimmed Waste Edge	<ul style="list-style-type: none">- Edge Waste Blower with Expulsion Tube
Optional	<ul style="list-style-type: none">- Friction Differential Shaft for rewinding.-Safety guard for the slitting device.-Emergency Switches on the 4 corner of machine.

Machine Parameters

Max. Unwinding Width	900mm
Max. Unwinding Dia	1000mm
Max. Rewinding Dia	160mm
Min Slitting Width	25mm
Machine Max. Speed	110m/min
Main Power	2.95kw
Unwinding Shaft	3" (76mm) air expanding shaft
Rewinding Shaft	0.5", 1" or as your request
Weight	1500kg
Dimension	2000*1700*1500mm
