Libao Series ML-1300W 1400W 1500W

Die Cutting And Creasing Machine

Usage:

A creasing and Die Cutting Machine is a special equipment for creasing and cutting ordinary cardboard corrugated board plastic and leather products in general. It is applicable to printing packaging decoration and plastic industries. Machine is characterized by compact structure, fine workmanship, big pressure, high precision, and easy reliable operation, etc.

Features

- Sliding bearings are made of high quality alloy cooper, thus to get effect of anti-friktion and shake reducing.
- Flywheel is with big moment of force and large pressure.
- High strength due to one piece casting by using top-ranking material for machine body.
- Single plate electromagnetic clutch is sensitive and reliable.
- With functions of single, continuous and opening dwell operation, dwell range is adjustable.
- Operating position is reasonably arranged, moving-bed can be opened to its opximum.
- Safety system is reliable.
- Can equip inner and outer movable frame and centralzed lubrication device.

Main Specification

Model	Inner Chase Size	Speed	Max. Rule Length	Motor Power
ML-1300w	1300×920mm	16±2Strokes/Min	<50m	7.5kw-4H
ML-140W	1400×1000mm	15±2Strokes/Min	<55m	7.5kw-4H
ML-150W	1500×1050mm	16±2Strokes/Min	<60m	7.5kw-4H
