ML-750 Manual Creasing And Die Cutting Machine

Detailed Product Description：

This machine is a special equipment for creasing and cutting ordinary cardboard, corrugated board, plastic and leather in general, it is applicable for printing packaging decoration and plastic industries. The machine is characterized by its compact structure, fine workmanship, high precision and easy and reliable operation. etc.

Features:

1, Sliding bearings are made of high-quality alloy cooper, thus to get effect of anti-friction and shake reducing.

2, Flywheel is with big moment of force and large pressure.

3, High strength due to one piece casting by using top-ranking material for machine body.

4, High strength duo to integral casting with high quality steel.

5, Single plate electromagnetic clutch is sensitive and reliable safety.

6, Single pressing, continuous pressing, adjustable delay pressing available.

7, Operational height is reasonable arranged, the opening angle of moving bed is optimum.

8, Reliable performance of safety protection system.

9, Inner and outer movable frame can be fitted, automatic oil pump matching.
