

PZ Two Color Offset Printing Machine

The machine has the facility with numbering, perforating and convertible perfecting system and to be convertible two-color perfecting for both side printing with automatic operation continuous dampening system, plate cylinder, preset counter, sheet decurler single action feed table setup. The machine is to be compact in size and easy operation, vibration free base, complete with built-in precision side lays, high speed stream feeder, electromechanical double sheet and mis-feed detector foreign materials preventer, static electricity recover, motorized pile lift, pre-set speed meter, preset counter, delivery jam detector, dust remover, air vacuum wheels, trouble monitoring indicator panel, complete set rubber covered inking rollers, doctor type water dampening unit with cloth covered rollers, key register pin circumferential side register adjustment with dial scale while the machine is running, manual ink roller washing up device, operation control panel with inching for backward and forward movement, automatic central lubricating system with oil pressure gauge, pilot lamps, sheet over-run detector, SPC automatic plate changing, automatic perfecting change over, segmented ink fountain in blade, single action feed table set-up, plate cylinder cocking (manual) preset counter, plate cylinder running register, SIS control system, sheet decurler, Adjustment of front lays, safety bar between cylinders for safety of operators, low pile delivery unit, variable speed driving motor suitable on 440 volts, 3 phase, 50 cycles power supply, oil tray, 2 feed table and 2 delivery tables.

SHANGHAI EX. EXPORT INTERNATIONAL INDUSTRY CO., LTD

Model	PZ2740E
Machine speed	12000s.p.h
Maximum sheet size	540×740mm
Minimum sheet size	273×393mm
Sheet thickness	0.06-0.6mm
Maximum image area	528×730mm
Plate size	677×755×0.3mm
Blanket size	740×760mm
Maximum feeder pile height	940mm
Maximum delivery pile height	780mm
Machine overall dimension	5400×2550×1950mm
Total power of motors	13.2kw
Machine weight	11700kg
