

## QFM 460B-Y 600B-Y Automatic Case Making Machine (Double Sides Irregular Shapes)

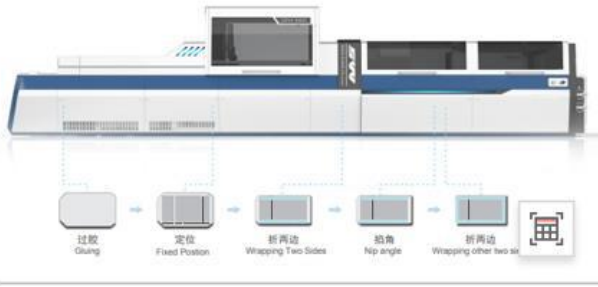

QFM-B-Y can be used for efficiently producing various of high-quality hardcover book case, book binder, folder, game board, books, table calendars, diaries, photo albums and high-end gift packaging cigarette, wine, higher phone box . tea box, moon cake boxes, home vits, large git boxes, etc) Excellent quality, ranges sizes, high speed, suitable for ranges of products, stable and reliable operation, easy operation and maintenance, saving labor and energy, all that make the models become QFM series classic work.

This machine adopts latest designed feeder automatic conveyed surface paper. t automatically coat glue, automatically positions, automatically corrects errors for device and automatically conveys cardboard. It adopts automatic paper conveying machine with independent intellectual right. And then bottom paper is automatically connected, automatically pasted. Automatically folded for shaping and automatically pressed. Products processed by this auto-matic machine is smooth, hemming is tight, it has excluded difficulties including chaff surface getting dirty and scratching accuracy's strictly controlled within 0.1mm.

## COMBINED CRAFT F LOW LINE

## PRODUCT SAMPLE DRAWING

注：其他可做样式，不再一一举例，本机也可做每块大小不同的产品  
 Remark: do not illustrate other samples, the machine can have different size of each product

## MAIN TECHNICAL PARAMETER

MODEL		QFM 460B-Y	QFM 600B-Y
Length of paper	纸张长度	190-830mm	190-1030mm
Width of paper	纸张宽度	100-460mm	100-630mm
Thickness of paper	纸张厚度	80-200g/m <sup>2</sup>	80-200g/m <sup>2</sup>
Thickness of cardboard	纸板厚度	1-3mm	1-3mm
Min width of spine	中条最小宽度	8mm	8mm
Position precision	定位精度	<math>\leq \pm 0.1\text{mm}</math>	<math>\leq \pm 0.1\text{mm}</math>
Speed	速度	0-30pcs/min	0-30pcs/min
Power	功率	12kw	13kw
Weight	机械重量	4000kg	5000kg
Dimension	机械尺寸	L9200*W2100*H2100mm	L10000*W2250*H2100mm

注：  
 1. 盒子的最大和最小尺寸，取决于装订的最大和最小尺寸以及装订的质量  
 2. 盒子的尺寸大小及装订的质量会影响装订的速度  
 3. 厂家不提供空气压缩机。
