

SF-720C 920C 1100C Semi-Auto Laminating Machine

- Pneumatic film unwinding system positions film roll more accurately, and makes the loading and unloading of film roll and film unwinding tension much more convenient.
- Double sets of serrated perforating wheels provide different choices for different specifications of sheets and film.
- Perfected traction adjusting system makes traction adjustment more convenient and efficient.
- Corrugating delivery system and vibrating receiving system ensure paper collection more regular and convenient.

Introduction:

- SCHNEIDER PLC system makes the machine run stably and quietly.
- $\Phi 320$ size of chromed heating roller is mounted with built-in oil heating system which provides
- Balanced laminating temperature and owns excellent temperature persistence.
- Pneumatic film unwinding system positions film roll more accurately, and makes the loading and unloading of film roll and film unwinding tension much more convenient.
- Double sets of serrated perforating wheels provide different choices for different specifications of sheets and film.
- Perfected traction adjusting system makes traction adjustment more convenient and efficient.
- Corrugating delivery system and vibrating receiving system ensure paper collection more regular and convenient.

SHANGHAI EX. EXPORT INTERNATIONAL INDUSTRY CO., LTD

Technical Parameters:

Model	SF-720C	SF-920C	SF-1100C
Max Paper Size Paper Thickness	720mm 100-500g/m ²	920mm 100-500g/m ²	1100mm 100-500g/m ²
Laminating Speed Gross Power	0-30m/min 18kw	0-30m/min 19kw	0-30m/min 20kw
Total Weight Overall Dimensions	1700kg 4600x1560x1500mm	1900kg 4600x1760x1500mm	2100kg 4600x1950x1500mm
