

SHANGHAI EX. EXPORT INTERNATIONAL INDUSTRY CO., LTD

SW-820 Automatic Thermal Film Laminating Machine

This SW-820 model automatic thermal film laminator machine is one of high-end thermal laminating machines, uses the world latest advanced technology which fit for high level post printing finishing. Machine working reliable and convenient, it is best choice for thermal film lamination.

Configuration:

Auto Feeder

This machine is equipped with a paper pre-stacker, Servo controlled feeder and a photoelectric sensor to ensure that paper is continuously fed into the machine

SHANGHAI EX. EXPORT INTERNATIONAL INDUSTRY CO., LTD

Side Lay Regulator

The Servo controller and Side Lay Mechanism guarantees precise paper alignment at all times.

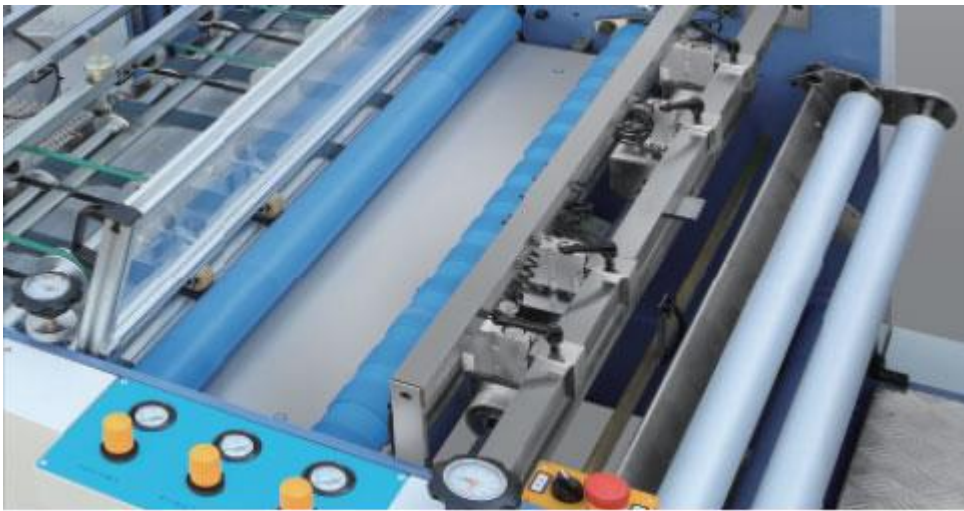

Electromagnetic Heater

Equipped with advanced electromagnetic heater. Fast pre-heating. Energy saving. Environmental protection.

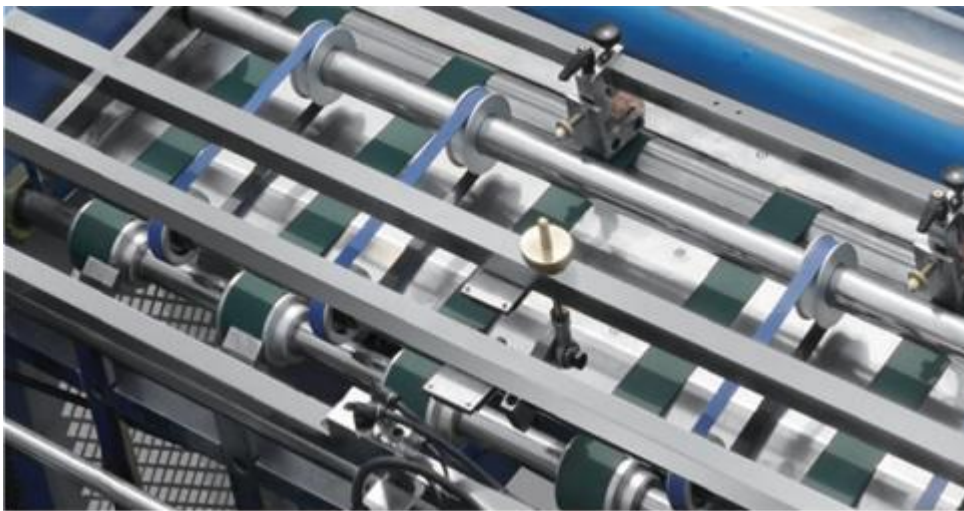

Human-computer interface

A user-friendly interface system with a colour touchscreen simplifies the operation process. The operator can easily and automatically control paper sizes, overlapping and machine speeds.

Separation system

Pneumatic separation system to separate the paper stably and quickly.

Corrugated Delivery

A corrugated delivery system collects paper easily.

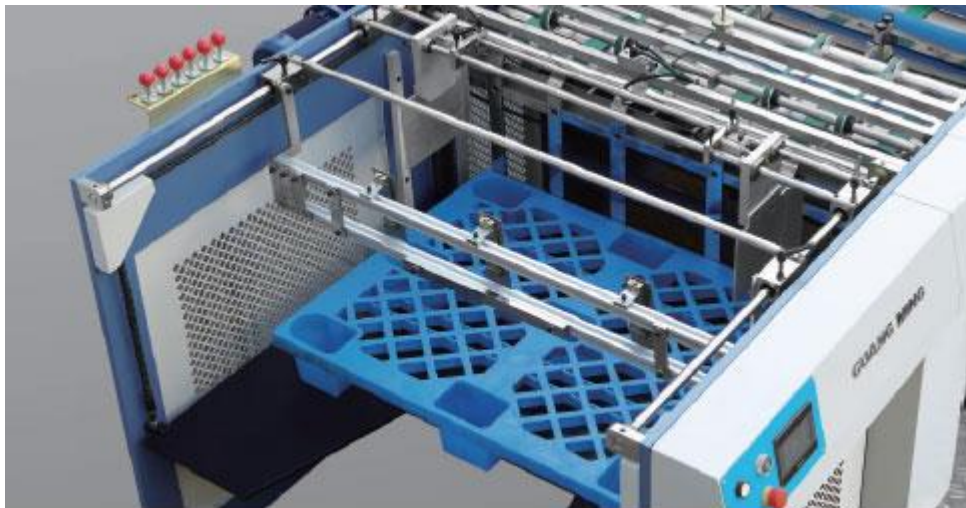

Anti-curvature Device

The machine is equipped with an anti-curl device, which ensures that paper remains flat and smooth during the lamination process.

SHANGHAI EX. EXPORT INTERNATIONAL INDUSTRY CO., LTD

Automatic Stacker

Automatic stacker receives the sheets quickly in order without stop the machine as well as counter the sheets

Film Loader

Operating the film loader is easy and efficient to use.
