

TJ-392 Full Automatic Self-Seal Envelope Gumming Machine

TJ-392 Full automatic self-seal envelope gumming machine is suitable for gumming remoistenable adhesive on the seal flap of blank envelopes.

It is characterized by loading paper without stop, adjusting the glue width by the CVT (continuously variable transmission), gluing with rotary roller to ensure that the glue is evenly distributed, and drying the glue by hot wind to ensure the paper's flatness.

- Reliable sheet separation
- No-stop feeder
- Easy regulation and paper positioning, accurate paper positioning
- Ensuring under high speeds.
- High quality electronic parts.
- High Production efficiency.
- Operator Friendly.

• **Technical parameter:**

Model	TJ-392
Output per hour	6000 - 22000 pieces
Size ranges blank envelopes	Min.100mm x 100mm – Max.390mm x 490mm
Paper weight	60-200g/m ²
Size ranges of gummed	5mm x 100mm – 30mm x 280mm
Connected load	8.0kw
Weight	1200kg
Dimensions	4500x1100x1150mm
