## ZH-G Series Automatic Multi-Functional Crash Lock Bottom Folder Gluer

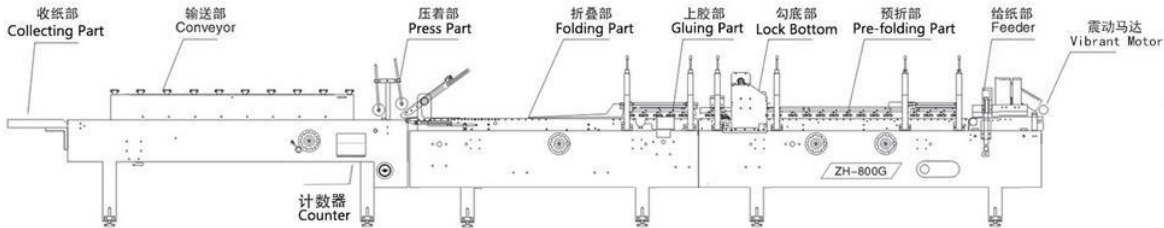

ZH-800G/900G/1000G is the most competitive multi-functional folder gluer machine designed by our company independently. It can fold and glue many simple and complicated carton boxes. Its ease of use, attractive pricing and broad scope of the application of the folder gluer make a new leap in folder gluer machine field. It made indelible contributions to the field. It combines a variety of folder gluer characteristics. It changes many disadvantages of crash lock bottom folder gluer machines, such as complicated structure, difficult operating and high cost. It is convenient for the current packaging and printing industry-competitive business variety, the less, the delivery of the tight schedule. It' s ideal packaging printing industry equipment.

1. Line speed: 0~220m/min continuous adjustment.
2. Usage paper: 200-800g/m<sup>2</sup> Paperboard, 3 ply E/F corrugated board.
3. The form of pasting box: Either side folds, the both sides pre -fold and either side glue, bottom glue.
4. Paperboard feeding: Automatic feeding
5. Way of folding: One, two and four fold 180°, three fold 135°.
6. Binder: Dissolve the type
7. Speed: 6000c/min
8. Electric: 3P 380V, 4. 5KW
9. Weight: 2000kg
10. Dimension: 8500 x 900 x 1300 (mm)
11. The counting range: 0-999999(full- automatic)
